| Valuation | 2300 Dublin time |
| Year end | 31 December |
| Custodian | Brown Brothers Harriman |

Risks

Guinness Emerging Markets Equity Income Fund is an equity fund. Investors should be willing and able to assume the risks of equity investing. The Fund invests only in stocks of companies that are traded on Emerging Markets stock exchanges or that do at least half of their business in Emerging Markets, it is therefore susceptible to the performance of that region and can be volatile. The value of an investment and the income from it can fall as well as rise as a result of market and currency movement; you may not get back the amount originally invested. Further details on the risk factors are included in the Fund's documentation, available on our website.

Source: FE fundinfo to 30.11.23. Investors should note that fees and expenses are charged to the capital of the Fund. This reduces the return on your investment by an amount equivalent to the Ongoing Charges Figure (OCF). The current OCF for the share class used for the fund performance returns is 1.99%. Returns for share classes with a different OCF will vary accordingly. Transaction costs also apply and are incurred when a fund buys or sells holdings. The performance returns do not reflect any initial charge; any such charge will also reduce the return. Historic yield reflects the distributions declared over the past 12 months expressed as a percentage of the mid-market price, as at the latest month end. It does not include any preliminary charges. Investors may be subject to tax on the distribution.

| Top 10 holdings | % | Country | % | Sector | % |

Fund Profile

Aim

Income and long-term capital growth

Investment Case

Provides exposure to dividend paying companies in Emerging Markets world-wide. Developing countries often offer faster growth due to factors including demographics, industrialisation, productivity gains and consumer spending. Value can be found in companies that have turned these themes into returns on capital above the cost of capital on a sustained basis.

Process

Quality: We look for companies that have sustained higher returns on invested capital which we believe are likely to persist. Value: We look for companies whose shares under-price the likely persistence of those returns on capital. Dividends: We look for companies that can grow their dividends.

Portfolio

Conviction: through a concentrated, equally weighted portfolio of 36 stocks, rebalanced periodically and managed on a one-in/one-out basis. Low turnover; minimum \$500m market cap; no benchmark-driven constraints on sector and regional weightings.

Investment Objective

An equity fund investing primarily in dividend paying companies that derive at least 50% of their revenues from business activities primarily in emerging markets countries.

The Fund is actively managed and uses the MSCI Emerging Markets Index as a comparator benchmark only.

Share classes

| Class | Currency | Acc/Dist | OCF | Maximum Initial Charge | ISIN | Bloomberg |
|------------|----------|----------|-------|------------------------|--------------|------------|
